Home Energy Audit level 2

The Home Energy Audit level 2 is a more detailed energy audit. We review your energy bills, the efficiency of your appliances and analyse your water consumption. We perform a deeper inspection of the building shell combined with a Scorecard assessment. Upon completion you will receive a detailed report outlining necessary home improvements options, and, including a payback time.

BENEFIT

This level 2 audit takes about 3h and includes:

- ▶ Review of your recent energy bills (12 months worth).
- ▶ Review of your home main appliances efficiencies and how often they are used.
- ▶ Performing a Victorian Residential Energy Scorecard Assessment.
- ▶ Inspection of the ceiling and the floor insulation, if accessible.
- ▶ Star rating certification of your home.
- ▶ A variation reports of the scorecard, showing you the most efficient way to invest in your house Energy metering your secondary appliances (Fridge, etc...)
- ▶ Air leakage inspection.
- ▶ Review of your water usage.
- ▶ Identify key problem areas.
- ▶ A personal report with a priority list of action and major energy upgrade including payback time where applicable.
- ▶ Availability to answer any further queries by phone or email.
